

We build AI
systems that
work. Not
demos. Not
dashboards.
Revenue.

Your competitors are
already using AI. The
only question is whether
they're using it better
than you.

OchAI designs and
deploys AI systems
tailored to your
operation — not off-the-
shelf tools with a
consulting markup.

Ready to stop watching
from the sideline?

Most AI implementations fail not because the technology is bad — but because nobody asked the right questions before writing the first line of code.

OchAI starts with your operation, your bottlenecks, your revenue model. Then we build.

The OchAI Difference

37+ years of self-taught technology. Full-We don't hand you a login and disappear. We stay until it works.

Every organization has different AI readiness. We meet you where you are with three engagement tiers — each designed to move you forward without the enterprise-agency overhead.

The Quartet — Launch Tier

Four core AI systems to automate intake, outreach, content, and reporting. Ideal for organizations ready to eliminate their first wave of manual overhead. Covers up to 40% of your daily operational drag.

"We stopped doing three jobs by hand the week after launch." — **OchAI client**

The Ensemble — Scale Tier

Eight integrated systems spanning your full workflow. CRM, ops, and lead pipelines working in concert. Covers up to 70% of operational friction.

The Symphony Orchestration —

Full Development Tier

Complete AI transformation. Custom-built, fully integrated, production-grade. Covers 90%+ of your operation with ongoing optimization.

- Defense & Aerospace Contractors
 - Professional Services Firms
 - Growing SMBs with Complex Ops
- AI-powered lead generation — Content automation — Intelligent intake systems — CRM integration — Reporting dashboards — Custom workflow automation — Web presence optimization — Ongoing What's Included system tuning

Start with a Conversation

No RFP required. No six-week discovery engagement. A focused 30-minute call is enough to know whether **OchAI** is a fit — and what tier gets you moving fastest.
